

COMPLETE CHESS LEARNING LIBRARY

The Complete Caro-Kann Defense

Reliable development, structure, theory, and active defense from Black's side

COURSE BOOK

30 focused chapters - model positions - decision rules - retrieval practice

Designed to change what you notice, calculate, remember, and do at the board.

How to Use This Course

ONE CHAPTER, FOUR PASSES

1. Read the position without moving pieces. 2. State your plan and the opponent's counterplay. 3. Study the decision rules. 4. Close the book and reconstruct the position from memory.

RETRIEVAL SCHEDULE

Review the chapter the next day, one week later, and after a game that reaches a similar structure. Retrieval is more valuable than rereading.

BOARD ROUTINE

Opponent's threat - forcing moves - loose pieces - worst piece - central break - best reply - choose and stop.

The course book explains each model position. The separate workbook forces recall, prediction, and self-scoring. Use the book first, then attempt the matching workbook page without looking back.

Engine evaluations are intentionally not the lesson. The aim is to store human decision rules that remain useful when the exact move order changes.

Course Map

MODULE	CHAPTERS
02 - Advance Variation	6
03 - Classical 4...Bf5	4
04 - Karpov and Modern Systems	4
05 - Panov-Botvinnik	4
06 - Exchange Variation	3
07 - Fantasy and Two Knights	3
08 - Sidelines and Repertoire Choices	6

01. Advance Short System

02 - Advance Variation

READ THE POSITION

Black develops the light bishop outside the chain before attacking d4 and e5.

PRIMARY PLAN

Use ...c5, ...Nc6, and ...Qb6 to pressure the center while keeping the bishop safe from tempi.

OPPONENT'S COUNTERPLAY

White develops quietly, keeps the center, and may use c4 or Be3 for space.

REFERENCE LINE

1. e4 c6 2. d4 d5 3. e5 Bf5 4. Nf3 e6 5. Be2 c5 6. O-O Nc6

MEMORY RULE

Advance Short: activate the bishop, then attack d4 before White gains time.

01. Decision Framework

Advance Short System

PAWN BREAK / TRANSFORMATION	Prepare the central break with development; calculate the forced recapture and the first open-line move.
PIECE JOB	Give every piece a job that supports the center or the critical break.
TACTICAL WARNING	The f5-bishop can be trapped or chased if it has no retreat after g4 and Nh4.
TRADE FILTER	Exchange only when the favorable feature survives the trade.
ENDGAME FORECAST	Simplify only when the healthier structure, better minor piece, or more active king survives the trade.
CLOCK RULE	Spend time on forcing or irreversible decisions; move efficiently in familiar structures.

ACTIVE RECALL

1. Without looking back, describe the center and the position's main imbalance.
2. What is your first useful plan, and which piece must improve before the pawn break?
3. What is the opponent's best freeing move or tactical resource?
4. Which exchange helps, which exchange helps the opponent, and what survives into the ending?
5. State the memory rule in your own words and name one trigger that would change the plan.

NEXT-GAME ASSIGNMENT

If a similar structure appears, pause before the first irreversible decision and use this rule: Advance Short: activate the bishop, then attack d4 before White gains time.

02. Advance Tal 4.h4

02 - Advance Variation

READ THE POSITION

White attacks the f5-bishop immediately and gains kingside space while Black fixes h4 with ...h5.

PRIMARY PLAN

Exchange the active attacking bishop when useful, challenge d4 with ...c5, and watch the h-file before castling.

OPPONENT'S COUNTERPLAY

White uses e6 sacrifices, Bg5, and Nh3-f4 against the kingside.

REFERENCE LINE 1. e4 c6 2. d4 d5 3. e5 Bf5 4. h4 h5 5. Bd3 Bxd3 6. Qxd3 e6

MEMORY RULE

Tal Advance: restrain h5, then return to the center before the hook matters.

02. Decision Framework

Advance Tal 4.h4

PAWN BREAK / TRANSFORMATION	Prepare the central break with development; calculate the forced recapture and the first open-line move.
PIECE JOB	Give every piece a job that supports the center or the critical break.
TACTICAL WARNING	The h5-pawn becomes a hook if White can open g4 or sacrifice on e6.
TRADE FILTER	Exchange only when the favorable feature survives the trade.
ENDGAME FORECAST	Simplify only when the healthier structure, better minor piece, or more active king survives the trade.
CLOCK RULE	Spend time on forcing or irreversible decisions; move efficiently in familiar structures.

ACTIVE RECALL

1. Without looking back, describe the center and the position's main imbalance.
2. What is your first useful plan, and which piece must improve before the pawn break?
3. What is the opponent's best freeing move or tactical resource?
4. Which exchange helps, which exchange helps the opponent, and what survives into the ending?
5. State the memory rule in your own words and name one trigger that would change the plan.

NEXT-GAME ASSIGNMENT

If a similar structure appears, pause before the first irreversible decision and use this rule: Tal Advance: restrain h5, then return to the center before the hook matters.

03. Advance 4.Nc3

02 - Advance Variation

READ THE POSITION

White gains tempi on the bishop with g4 while delaying kingside safety.

PRIMARY PLAN

Retreat the bishop to g6, attack d4 with ...c5, and use the exposed kingside as a central target.

OPPONENT'S COUNTERPLAY

White seeks h4-h5 and f4-f5 with a large space advantage.

REFERENCE LINE

1. e4 c6 2. d4 d5 3. e5 Bf5 4. Nc3 e6 5. g4 Bg6 6. Nge2

MEMORY RULE

Advance Nc3: preserve the bishop and make White's pawn tempi pay a central price.

03. Decision Framework

Advance 4.Nc3

PAWN BREAK / TRANSFORMATION	Prepare the central break with development; calculate the forced recapture and the first open-line move.
PIECE JOB	Give every piece a job that supports the center or the critical break.
TACTICAL WARNING	A bishop retreat to e6 can block the e-pawn and invite Nf4 with tempo.
TRADE FILTER	Exchange only when the favorable feature survives the trade.
ENDGAME FORECAST	Simplify only when the healthier structure, better minor piece, or more active king survives the trade.
CLOCK RULE	Spend time on forcing or irreversible decisions; move efficiently in familiar structures.

ACTIVE RECALL

1. Without looking back, describe the center and the position's main imbalance.
2. What is your first useful plan, and which piece must improve before the pawn break?
3. What is the opponent's best freeing move or tactical resource?
4. Which exchange helps, which exchange helps the opponent, and what survives into the ending?
5. State the memory rule in your own words and name one trigger that would change the plan.

NEXT-GAME ASSIGNMENT

If a similar structure appears, pause before the first irreversible decision and use this rule: Advance Nc3: preserve the bishop and make White's pawn tempi pay a central price.

04. Advance 4.Nd2

02 - Advance Variation

READ THE POSITION

White develops without committing the c-pawn and prepares flexible kingside support.

PRIMARY PLAN

Challenge d4 immediately, use ...Nc6 and ...Qb6, and avoid allowing a comfortable c3 shell.

OPPONENT'S COUNTERPLAY

White uses Be2, O-O, and Nb3 or c4 according to Black's pressure.

REFERENCE LINE 1. e4 c6 2. d4 d5 3. e5 Bf5 4. Nd2 e6 5. Ngf3 c5

MEMORY RULE

Advance Nd2: pressure the center before White completes the ideal setup.

04. Decision Framework

Advance 4.Nd2

PAWN BREAK / TRANSFORMATION	Prepare the central break with development; calculate the forced recapture and the first open-line move.
PIECE JOB	Give every piece a job that supports the center or the critical break.
TACTICAL WARNING	Taking d4 can give White a useful c-pawn recapture and open c3 for the knight.
TRADE FILTER	Exchange only when the favorable feature survives the trade.
ENDGAME FORECAST	Simplify only when the healthier structure, better minor piece, or more active king survives the trade.
CLOCK RULE	Spend time on forcing or irreversible decisions; move efficiently in familiar structures.

ACTIVE RECALL

1. Without looking back, describe the center and the position's main imbalance.
2. What is your first useful plan, and which piece must improve before the pawn break?
3. What is the opponent's best freeing move or tactical resource?
4. Which exchange helps, which exchange helps the opponent, and what survives into the ending?
5. State the memory rule in your own words and name one trigger that would change the plan.

NEXT-GAME ASSIGNMENT

If a similar structure appears, pause before the first irreversible decision and use this rule: Advance Nd2: pressure the center before White completes the ideal setup.

05. Botvinnik-Carls 3...c5

02 - Advance Variation

READ THE POSITION

Black attacks the advanced center immediately and is willing to recover c5 through development.

PRIMARY PLAN

Use ...Bxc5, ...Ne7, and ...Ng6 while preventing White from holding the extra pawn safely.

OPPONENT'S COUNTERPLAY

White protects c5 and uses space to delay Black's recovery.

REFERENCE LINE

1. e4 c6 2. d4 d5 3. e5 c5 4. dxc5 e6 5. Be3 Nd7 6. Nf3

MEMORY RULE

Botvinnik-Carls: regain c5 with pieces, not queen exposure.

05. Decision Framework

Botvinnik-Carls 3...c5

PAWN BREAK / TRANSFORMATION	Prepare the central break with development; calculate the forced recapture and the first open-line move.
PIECE JOB	Give every piece a job that supports the center or the critical break.
TACTICAL WARNING	Recovering c5 with the queen can lose tempi to b4 or Nc3.
TRADE FILTER	Exchange only when the favorable feature survives the trade.
ENDGAME FORECAST	Simplify only when the healthier structure, better minor piece, or more active king survives the trade.
CLOCK RULE	Spend time on forcing or irreversible decisions; move efficiently in familiar structures.

ACTIVE RECALL

1. Without looking back, describe the center and the position's main imbalance.
2. What is your first useful plan, and which piece must improve before the pawn break?
3. What is the opponent's best freeing move or tactical resource?
4. Which exchange helps, which exchange helps the opponent, and what survives into the ending?
5. State the memory rule in your own words and name one trigger that would change the plan.

NEXT-GAME ASSIGNMENT

If a similar structure appears, pause before the first irreversible decision and use this rule: Botvinnik-Carls: regain c5 with pieces, not queen exposure.

06. Advance Bayonet Restraint

02 - Advance Variation

READ THE POSITION

Black chooses ...h6 rather than ...h5 and prepares a retreat while keeping the kingside less fixed.

PRIMARY PLAN

Challenge d4 quickly and decide whether ...c5 or ...Nd7 best supports the bishop's safety.

OPPONENT'S COUNTERPLAY

White uses g4, Ne2-f4, and kingside space.

REFERENCE LINE 1. e4 c6 2. d4 d5 3. e5 Bf5 4. h4 h6 5. Bd3 Bxd3 6. Qxd3 e6

MEMORY RULE

Advance Bayonet: give the bishop an exit before fighting elsewhere.

06. Decision Framework

Advance Bayonet Restraint

PAWN BREAK / TRANSFORMATION	Prepare the central break with development; calculate the forced recapture and the first open-line move.
PIECE JOB	Give every piece a job that supports the center or the critical break.
TACTICAL WARNING	The bishop can run out of squares after g4 if Black spends another slow move.
TRADE FILTER	Exchange only when the favorable feature survives the trade.
ENDGAME FORECAST	Simplify only when the healthier structure, better minor piece, or more active king survives the trade.
CLOCK RULE	Spend time on forcing or irreversible decisions; move efficiently in familiar structures.

ACTIVE RECALL

1. Without looking back, describe the center and the position's main imbalance.
2. What is your first useful plan, and which piece must improve before the pawn break?
3. What is the opponent's best freeing move or tactical resource?
4. Which exchange helps, which exchange helps the opponent, and what survives into the ending?
5. State the memory rule in your own words and name one trigger that would change the plan.

NEXT-GAME ASSIGNMENT

If a similar structure appears, pause before the first irreversible decision and use this rule: Advance Bayonet: give the bishop an exit before fighting elsewhere.

07. Classical Main Position

03 - Classical 4...Bf5

READ THE POSITION

Black trades the central pawns, develops the bishop, and accepts modest space for a sound structure.

PRIMARY PLAN

Use ...Ngf6, ...e6, and ...Qc7 while preventing h5 from trapping the bishop.

OPPONENT'S COUNTERPLAY

White gains space with h4-h5 and develops for Bd3 or Ne5.

REFERENCE LINE

1. e4 c6 2. d4 d5 3. Nc3 dxe4 4. Nxe4 Bf5 5. Ng3 Bg6 6. h4 h6 7. Nf3 Nd7

MEMORY RULE

Classical Caro: preserve the bishop first, then complete the compact setup.

07. Decision Framework

Classical Main Position

PAWN BREAK / TRANSFORMATION	Prepare the central break with development; calculate the forced recapture and the first open-line move.
PIECE JOB	Give every piece a job that supports the center or the critical break.
TACTICAL WARNING	The g6-bishop can be trapped if ...h6 and ...Bh7 are mistimed.
TRADE FILTER	Exchange only when the favorable feature survives the trade.
ENDGAME FORECAST	Simplify only when the healthier structure, better minor piece, or more active king survives the trade.
CLOCK RULE	Spend time on forcing or irreversible decisions; move efficiently in familiar structures.

ACTIVE RECALL

1. Without looking back, describe the center and the position's main imbalance.
2. What is your first useful plan, and which piece must improve before the pawn break?
3. What is the opponent's best freeing move or tactical resource?
4. Which exchange helps, which exchange helps the opponent, and what survives into the ending?
5. State the memory rule in your own words and name one trigger that would change the plan.

NEXT-GAME ASSIGNMENT

If a similar structure appears, pause before the first irreversible decision and use this rule: Classical Caro: preserve the bishop first, then complete the compact setup.

08. Classical 7.h5

03 - Classical 4...Bf5

READ THE POSITION

White gains space and fixes the bishop on h7 while Black completes development behind it.

PRIMARY PLAN

Use ...Ngf6, ...e6, and ...Qc7 to challenge White's center and make the h5-pawn a target.

OPPONENT'S COUNTERPLAY

White uses Bd3, Ne5, and Qe2 to attack the kingside.

REFERENCE LINE

1. e4 c6 2. d4 d5 3. Nc3 dxe4 4. Nxe4 Bf5 5. Ng3 Bg6 6. h4 h6 7. Nf3 Nd7 8. h5 Bh7

MEMORY RULE

Classical h5: retreat intact, then attack the overextended pawn chain.

08. Decision Framework

Classical 7.h5

PAWN BREAK / TRANSFORMATION	Prepare the central break with development; calculate the forced recapture and the first open-line move.
PIECE JOB	Give every piece a job that supports the center or the critical break.
TACTICAL WARNING	Exchanging on d3 can help White's queen reach h7 if the king castles too soon.
TRADE FILTER	Exchange only when the favorable feature survives the trade.
ENDGAME FORECAST	Simplify only when the healthier structure, better minor piece, or more active king survives the trade.
CLOCK RULE	Spend time on forcing or irreversible decisions; move efficiently in familiar structures.

ACTIVE RECALL

1. Without looking back, describe the center and the position's main imbalance.
2. What is your first useful plan, and which piece must improve before the pawn break?
3. What is the opponent's best freeing move or tactical resource?
4. Which exchange helps, which exchange helps the opponent, and what survives into the ending?
5. State the memory rule in your own words and name one trigger that would change the plan.

NEXT-GAME ASSIGNMENT

If a similar structure appears, pause before the first irreversible decision and use this rule: Classical h5: retreat intact, then attack the overextended pawn chain.

09. Classical 7.N1e2

03 - Classical 4...Bf5

READ THE POSITION

White keeps the g1-knight flexible and prepares h5 or Nf4 without blocking the f-pawn.

PRIMARY PLAN

Develop with ...Nd7 and ...Ngf6 while watching h5 and the e6 sacrifice.

OPPONENT'S COUNTERPLAY

White uses Nf4, h5, and Bd3 to challenge the bishop and kingside.

REFERENCE LINE

1. e4 c6 2. d4 d5 3. Nc3 dxe4 4. Nxe4 Bf5 5. Ng3 Bg6 6. N1e2 e6 7. h4 h6

MEMORY RULE

Classical Nge2: count the bishop's retreat squares before every developing move.

09. Decision Framework

Classical 7.N1e2

PAWN BREAK / TRANSFORMATION	Prepare the central break with development; calculate the forced recapture and the first open-line move.
PIECE JOB	Give every piece a job that supports the center or the critical break.
TACTICAL WARNING	A routine ...Nf6 can invite Nxf5 or h5 with tactical pressure on e6.
TRADE FILTER	Exchange only when the favorable feature survives the trade.
ENDGAME FORECAST	Simplify only when the healthier structure, better minor piece, or more active king survives the trade.
CLOCK RULE	Spend time on forcing or irreversible decisions; move efficiently in familiar structures.

ACTIVE RECALL

1. Without looking back, describe the center and the position's main imbalance.
2. What is your first useful plan, and which piece must improve before the pawn break?
3. What is the opponent's best freeing move or tactical resource?
4. Which exchange helps, which exchange helps the opponent, and what survives into the ending?
5. State the memory rule in your own words and name one trigger that would change the plan.

NEXT-GAME ASSIGNMENT

If a similar structure appears, pause before the first irreversible decision and use this rule: Classical Nge2: count the bishop's retreat squares before every developing move.

10. Classical Long Castling

03 - Classical 4...Bf5

READ THE POSITION

White castles long and converts a quiet structure into opposite-wing play.

PRIMARY PLAN

Use ...Bd6, ...Qc7, and queenside contact while preventing a direct h-file attack.

OPPONENT'S COUNTERPLAY

White pushes Ne5, Rhe1, and central or kingside pressure.

REFERENCE LINE

1. e4 c6 2. d4 d5 3. Nc3 dxe4 4. Nxe4 Bf5 5. Ng3 Bg6 6. h4 h6 7. Nf3 Nd7 8. h5 Bh7 9. Bd3 Bxd3 10. Qxd3 e6 11. Bd2 Ngf6 12. O-O-O

MEMORY RULE

Long-castle Classical: develop with tempo against the king, not with automatic pawn pushes.

10. Decision Framework

Classical Long Castling

PAWN BREAK / TRANSFORMATION	Prepare the central break with development; calculate the forced recapture and the first open-line move.
PIECE JOB	Give every piece a job that supports the center or the critical break.
TACTICAL WARNING	Opening the c-file can expose both kings, so queen trades and checks must be calculated first.
TRADE FILTER	Exchange only when the favorable feature survives the trade.
ENDGAME FORECAST	Simplify only when the healthier structure, better minor piece, or more active king survives the trade.
CLOCK RULE	Spend time on forcing or irreversible decisions; move efficiently in familiar structures.

ACTIVE RECALL

1. Without looking back, describe the center and the position's main imbalance.
2. What is your first useful plan, and which piece must improve before the pawn break?
3. What is the opponent's best freeing move or tactical resource?
4. Which exchange helps, which exchange helps the opponent, and what survives into the ending?
5. State the memory rule in your own words and name one trigger that would change the plan.

NEXT-GAME ASSIGNMENT

If a similar structure appears, pause before the first irreversible decision and use this rule: Long-castle Classical: develop with tempo against the king, not with automatic pawn pushes.

11. Karpov 4...Nd7

04 - Karpov and Modern Systems

READ THE POSITION

Black keeps the light bishop at home and develops solidly without allowing h4-h5 tempi against it.

PRIMARY PLAN

Use ...Ngf6, ...Be7, and ...O-O, then free the bishop with ...c5 or ...b6.

OPPONENT'S COUNTERPLAY

White gains easy development and may use Bd3, O-O, and Qe2 for central pressure.

REFERENCE LINE

1. e4 c6 2. d4 d5 3. Nc3 dxe4 4. Nxe4 Nd7 5. Nf3 Ngf6 6. Ng3 e6

MEMORY RULE

Karpov: save bishop tempi, but schedule its liberation.

11. Decision Framework

Karpov 4...Nd7

PAWN BREAK / TRANSFORMATION	Prepare the central break with development; calculate the forced recapture and the first open-line move.
PIECE JOB	Give every piece a job that supports the center or the critical break.
TACTICAL WARNING	The c8-bishop can become permanently passive if Black never creates a freeing plan.
TRADE FILTER	Exchange only when the favorable feature survives the trade.
ENDGAME FORECAST	Simplify only when the healthier structure, better minor piece, or more active king survives the trade.
CLOCK RULE	Spend time on forcing or irreversible decisions; move efficiently in familiar structures.

ACTIVE RECALL

1. Without looking back, describe the center and the position's main imbalance.
2. What is your first useful plan, and which piece must improve before the pawn break?
3. What is the opponent's best freeing move or tactical resource?
4. Which exchange helps, which exchange helps the opponent, and what survives into the ending?
5. State the memory rule in your own words and name one trigger that would change the plan.

NEXT-GAME ASSIGNMENT

If a similar structure appears, pause before the first irreversible decision and use this rule: Karpov: save bishop tempi, but schedule its liberation.

12. Karpov 5.Ng5

04 - Karpov and Modern Systems

READ THE POSITION

White targets f7 early while Black relies on compact development and accurate defense.

PRIMARY PLAN

Meet the threat with ...Ngf6 and ...e6, then exchange the active knight without weakening the king.

OPPONENT'S COUNTERPLAY

White uses N1f3, Qe2, and sacrifices on e6 or f7.

REFERENCE LINE

1. e4 c6 2. d4 d5 3. Nc3 dxe4 4. Nxe4 Nd7 5. Ng5 Ngf6 6. Bd3 e6

MEMORY RULE

Karpov Ng5: defend f7 through development, not pawn panic.

12. Decision Framework

Karpov 5.Ng5

PAWN BREAK / TRANSFORMATION	Prepare the central break with development; calculate the forced recapture and the first open-line move.
PIECE JOB	Give every piece a job that supports the center or the critical break.
TACTICAL WARNING	A careless ...h6 can invite Nxe6 or Nxf7 forks depending on queen placement.
TRADE FILTER	Exchange only when the favorable feature survives the trade.
ENDGAME FORECAST	Simplify only when the healthier structure, better minor piece, or more active king survives the trade.
CLOCK RULE	Spend time on forcing or irreversible decisions; move efficiently in familiar structures.

ACTIVE RECALL

1. Without looking back, describe the center and the position's main imbalance.
2. What is your first useful plan, and which piece must improve before the pawn break?
3. What is the opponent's best freeing move or tactical resource?
4. Which exchange helps, which exchange helps the opponent, and what survives into the ending?
5. State the memory rule in your own words and name one trigger that would change the plan.

NEXT-GAME ASSIGNMENT

If a similar structure appears, pause before the first irreversible decision and use this rule: Karpov Ng5: defend f7 through development, not pawn panic.

13. Bronstein-Larsen 4...Nf6

04 - Karpov and Modern Systems

READ THE POSITION

Black accepts doubled f-pawns for the open g-file, bishop pair, and a dynamic center.

PRIMARY PLAN

Use ...Bf5, ...e6, and ...Nd7 while deciding whether the king belongs on the queenside or center.

OPPONENT'S COUNTERPLAY

White targets the f-pawns and tries to exploit the displaced king.

REFERENCE LINE 1. e4 c6 2. d4 d5 3. Nc3 dxe4 4. Nxe4 Nf6 5. Nxf6+ gxf6

MEMORY RULE

Bronstein-Larsen: damaged pawns must buy active files and bishops.

13. Decision Framework

Bronstein-Larsen 4...Nf6

PAWN BREAK / TRANSFORMATION	Prepare the central break with development; calculate the forced recapture and the first open-line move.
PIECE JOB	Give every piece a job that supports the center or the critical break.
TACTICAL WARNING	The open g-file is useful only if White cannot use checks and the central dark squares.
TRADE FILTER	Exchange only when the favorable feature survives the trade.
ENDGAME FORECAST	Simplify only when the healthier structure, better minor piece, or more active king survives the trade.
CLOCK RULE	Spend time on forcing or irreversible decisions; move efficiently in familiar structures.

ACTIVE RECALL

1. Without looking back, describe the center and the position's main imbalance.
2. What is your first useful plan, and which piece must improve before the pawn break?
3. What is the opponent's best freeing move or tactical resource?
4. Which exchange helps, which exchange helps the opponent, and what survives into the ending?
5. State the memory rule in your own words and name one trigger that would change the plan.

NEXT-GAME ASSIGNMENT

If a similar structure appears, pause before the first irreversible decision and use this rule: Bronstein-Larsen: damaged pawns must buy active files and bishops.

14. Gurgenidze System

04 - Karpov and Modern Systems

READ THE POSITION

Black fianchettoes and invites White to gain space before striking the center.

PRIMARY PLAN

Use ...Nfd7 and ...c5 to undermine d4 while the g7-bishop pressures the long diagonal.

OPPONENT'S COUNTERPLAY

White builds e5, h3, and Be3 with a large center.

REFERENCE LINE

1. e4 c6 2. d4 d5 3. Nc3 g6 4. Nf3 Bg7 5. h3 Nf6 6. e5

MEMORY RULE

Gurgenidze: fianchetto only with a concrete attack on the center.

14. Decision Framework

Gurgenidze System

PAWN BREAK / TRANSFORMATION	Prepare the central break with development; calculate the forced recapture and the first open-line move.
PIECE JOB	Give every piece a job that supports the center or the critical break.
TACTICAL WARNING	The g7-bishop can be shut out permanently if Black delays ...c5.
TRADE FILTER	Exchange only when the favorable feature survives the trade.
ENDGAME FORECAST	Simplify only when the healthier structure, better minor piece, or more active king survives the trade.
CLOCK RULE	Spend time on forcing or irreversible decisions; move efficiently in familiar structures.

ACTIVE RECALL

1. Without looking back, describe the center and the position's main imbalance.
2. What is your first useful plan, and which piece must improve before the pawn break?
3. What is the opponent's best freeing move or tactical resource?
4. Which exchange helps, which exchange helps the opponent, and what survives into the ending?
5. State the memory rule in your own words and name one trigger that would change the plan.

NEXT-GAME ASSIGNMENT

If a similar structure appears, pause before the first irreversible decision and use this rule: Gurgenidze: fianchetto only with a concrete attack on the center.

15. Panov Main Line

05 - Panov-Botvinnik

READ THE POSITION

White accepts an isolated d-pawn structure for open lines and active piece development.

PRIMARY PLAN

Blockade d5, complete development, and exchange active pieces without becoming passive.

OPPONENT'S COUNTERPLAY

White uses cxd5, Bd3, O-O, and Re1 for initiative and central tactics.

REFERENCE LINE

1. e4 c6 2. d4 d5 3. exd5 cxd5 4. c4 Nf6 5. Nc3 e6 6. Nf3 Be7

MEMORY RULE

Panov: blockade first, exchange attackers second, collect the pawn last.

15. Decision Framework

Panov Main Line

PAWN BREAK / TRANSFORMATION	Prepare the central break with development; calculate the forced recapture and the first open-line move.
PIECE JOB	Give every piece a job that supports the center or the critical break.
TACTICAL WARNING	The isolated pawn may advance or sacrifice itself to open lines before it becomes weak.
TRADE FILTER	Exchange only when the favorable feature survives the trade.
ENDGAME FORECAST	Simplify only when the healthier structure, better minor piece, or more active king survives the trade.
CLOCK RULE	Spend time on forcing or irreversible decisions; move efficiently in familiar structures.

ACTIVE RECALL

1. Without looking back, describe the center and the position's main imbalance.
2. What is your first useful plan, and which piece must improve before the pawn break?
3. What is the opponent's best freeing move or tactical resource?
4. Which exchange helps, which exchange helps the opponent, and what survives into the ending?
5. State the memory rule in your own words and name one trigger that would change the plan.

NEXT-GAME ASSIGNMENT

If a similar structure appears, pause before the first irreversible decision and use this rule: Panov: blockade first, exchange attackers second, collect the pawn last.

16. Panov 5...Nc6

05 - Panov-Botvinnik

READ THE POSITION

Black develops actively and increases pressure on d4 while keeping the c8-bishop flexible.

PRIMARY PLAN

Use ...Bb4, ...Be7, and ...O-O while watching d5 tactics on the open center.

OPPONENT'S COUNTERPLAY

White develops with Bg5 or cxd5 and may create hanging pawns.

REFERENCE LINE

1. e4 c6 2. d4 d5 3. exd5 cxd5 4. c4 Nf6 5. Nc3 Nc6 6. Nf3 e6

MEMORY RULE

Panov ...Nc6: active development must survive the d5 calculation.

16. Decision Framework

Panov 5...Nc6

PAWN BREAK / TRANSFORMATION	Prepare the central break with development; calculate the forced recapture and the first open-line move.
PIECE JOB	Give every piece a job that supports the center or the critical break.
TACTICAL WARNING	The c6-knight can be pinned and the d5-pawn overloaded after cxd5.
TRADE FILTER	Exchange only when the favorable feature survives the trade.
ENDGAME FORECAST	Simplify only when the healthier structure, better minor piece, or more active king survives the trade.
CLOCK RULE	Spend time on forcing or irreversible decisions; move efficiently in familiar structures.

ACTIVE RECALL

1. Without looking back, describe the center and the position's main imbalance.
2. What is your first useful plan, and which piece must improve before the pawn break?
3. What is the opponent's best freeing move or tactical resource?
4. Which exchange helps, which exchange helps the opponent, and what survives into the ending?
5. State the memory rule in your own words and name one trigger that would change the plan.

NEXT-GAME ASSIGNMENT

If a similar structure appears, pause before the first irreversible decision and use this rule: Panov ...Nc6: active development must survive the d5 calculation.

17. Panov Fianchetto Defense

05 - Panov-Botvinnik

READ THE POSITION

Black fianchettoes to pressure d4 and accepts an open center with an active dark bishop.

PRIMARY PLAN

Develop ...Bg7 and ...O-O, then attack the isolated or hanging pawns with pieces.

OPPONENT'S COUNTERPLAY

White uses Qb3, Nxd5, and rapid development against b7 and d5.

REFERENCE LINE

1. e4 c6 2. d4 d5 3. exd5 cxd5 4. c4 Nf6 5. Nc3 g6 6. cxd5 Nxd5

MEMORY RULE

Panov fianchetto: secure b7 and d5 before trusting the long diagonal.

17. Decision Framework

Panov Fianchetto Defense

PAWN BREAK / TRANSFORMATION	Prepare the central break with development; calculate the forced recapture and the first open-line move.
PIECE JOB	Give every piece a job that supports the center or the critical break.
TACTICAL WARNING	The b7-pawn and d5-knight can be forked by queen checks if Black castles blindly.
TRADE FILTER	Exchange only when the favorable feature survives the trade.
ENDGAME FORECAST	Simplify only when the healthier structure, better minor piece, or more active king survives the trade.
CLOCK RULE	Spend time on forcing or irreversible decisions; move efficiently in familiar structures.

ACTIVE RECALL

1. Without looking back, describe the center and the position's main imbalance.
2. What is your first useful plan, and which piece must improve before the pawn break?
3. What is the opponent's best freeing move or tactical resource?
4. Which exchange helps, which exchange helps the opponent, and what survives into the ending?
5. State the memory rule in your own words and name one trigger that would change the plan.

NEXT-GAME ASSIGNMENT

If a similar structure appears, pause before the first irreversible decision and use this rule: Panov fianchetto: secure b7 and d5 before trusting the long diagonal.

18. Panov Endgame Structure

05 - Panov-Botvinnik

READ THE POSITION

The center simplifies toward an IQP position where activity and blockade quality matter more than material.

PRIMARY PLAN

Place a knight on d5, exchange White's active bishop, and contest the open files.

OPPONENT'S COUNTERPLAY

White uses Re1, Qe2, and Qe4 for king-side pressure before exchanges.

REFERENCE LINE

1. e4 c6 2. d4 d5 3. exd5 cxd5 4. c4 Nf6 5. Nc3 e6 6. Nf3 Be7 7. cxd5 Nxd5 8. Bd3 O-O 9. O-O Nc6

MEMORY RULE

Panov ending: neutralize activity before celebrating the pawn target.

18. Decision Framework

Panov Endgame Structure

PAWN BREAK / TRANSFORMATION	Prepare the central break with development; calculate the forced recapture and the first open-line move.
PIECE JOB	Give every piece a job that supports the center or the critical break.
TACTICAL WARNING	Trading queens does not solve the position if White's rook controls e5 or the bishop attacks h7.
TRADE FILTER	Exchange only when the favorable feature survives the trade.
ENDGAME FORECAST	Simplify only when the healthier structure, better minor piece, or more active king survives the trade.
CLOCK RULE	Spend time on forcing or irreversible decisions; move efficiently in familiar structures.

ACTIVE RECALL

1. Without looking back, describe the center and the position's main imbalance.
2. What is your first useful plan, and which piece must improve before the pawn break?
3. What is the opponent's best freeing move or tactical resource?
4. Which exchange helps, which exchange helps the opponent, and what survives into the ending?
5. State the memory rule in your own words and name one trigger that would change the plan.

NEXT-GAME ASSIGNMENT

If a similar structure appears, pause before the first irreversible decision and use this rule: Panov ending: neutralize activity before celebrating the pawn target.

19. Exchange 4.Bd3

06 - Exchange Variation

READ THE POSITION

White builds a Carlsbad-style structure with active bishops while Black develops naturally against d4.

PRIMARY PLAN

Use ...Nf6, ...Bg4, and ...e6, then choose minority play or central pressure according to castling.

OPPONENT'S COUNTERPLAY

White uses Bf4, Nd2, and Ngf3 for a kingside or central initiative.

REFERENCE LINE 1. e4 c6 2. d4 d5 3. exd5 cxd5 4. Bd3 Nc6 5. c3 Nf6 6. Bf4 Bg4

MEMORY RULE

Exchange Bd3: develop against d4 without losing time to queen checks.

19. Decision Framework

Exchange 4.Bd3

PAWN BREAK / TRANSFORMATION	Prepare the central break with development; calculate the forced recapture and the first open-line move.
PIECE JOB	Give every piece a job that supports the center or the critical break.
TACTICAL WARNING	The d4-pawn can be tactically protected by a discovered queen attack on a4 or b5.
TRADE FILTER	Exchange only when the favorable feature survives the trade.
ENDGAME FORECAST	Simplify only when the healthier structure, better minor piece, or more active king survives the trade.
CLOCK RULE	Spend time on forcing or irreversible decisions; move efficiently in familiar structures.

ACTIVE RECALL

1. Without looking back, describe the center and the position's main imbalance.
2. What is your first useful plan, and which piece must improve before the pawn break?
3. What is the opponent's best freeing move or tactical resource?
4. Which exchange helps, which exchange helps the opponent, and what survives into the ending?
5. State the memory rule in your own words and name one trigger that would change the plan.

NEXT-GAME ASSIGNMENT

If a similar structure appears, pause before the first irreversible decision and use this rule: Exchange Bd3: develop against d4 without losing time to queen checks.

20. Exchange 4.Nf3

06 - Exchange Variation

READ THE POSITION

White develops quickly and keeps the c-pawn flexible while Black pins and pressures the center.

PRIMARY PLAN

Use ...e6 and ...Bd6 or ...Qc7, then create an asymmetry with piece placement rather than pawn weakness.

OPPONENT'S COUNTERPLAY

White may use c3, Re1, and Bf4 for active development.

REFERENCE LINE

1. e4 c6 2. d4 d5 3. exd5 cxd5 4. Nf3 Nc6 5. Bd3 Nf6 6. O-O Bg4

MEMORY RULE

Exchange Nf3: pin only when the trade improves Black's control of d4.

20. Decision Framework

Exchange 4.Nf3

PAWN BREAK / TRANSFORMATION	Prepare the central break with development; calculate the forced recapture and the first open-line move.
PIECE JOB	Give every piece a job that supports the center or the critical break.
TACTICAL WARNING	The g4-bishop can become a target to h3 and g4 if Black cannot exchange on f3 profitably.
TRADE FILTER	Exchange only when the favorable feature survives the trade.
ENDGAME FORECAST	Simplify only when the healthier structure, better minor piece, or more active king survives the trade.
CLOCK RULE	Spend time on forcing or irreversible decisions; move efficiently in familiar structures.

ACTIVE RECALL

1. Without looking back, describe the center and the position's main imbalance.
2. What is your first useful plan, and which piece must improve before the pawn break?
3. What is the opponent's best freeing move or tactical resource?
4. Which exchange helps, which exchange helps the opponent, and what survives into the ending?
5. State the memory rule in your own words and name one trigger that would change the plan.

NEXT-GAME ASSIGNMENT

If a similar structure appears, pause before the first irreversible decision and use this rule: Exchange Nf3: pin only when the trade improves Black's control of d4.

21. Exchange Minority Structure

06 - Exchange Variation

READ THE POSITION

The symmetrical-looking center becomes a queenside minority and piece-activity battle.

PRIMARY PLAN

Use ...Bd6, ...Be7, and ...O-O, then choose ...Nh5 or queenside play to challenge White's active bishop.

OPPONENT'S COUNTERPLAY

White gains space with queenside expansion or uses the e-file for central pressure.

REFERENCE LINE

1. e4 c6 2. d4 d5 3. exd5 cxd5 4. Bd3 Nc6 5. c3 Nf6 6. Bf4 Bg4 7. Qb3 Qd7 8. Nd2 e6 9. Ngf3

MEMORY RULE

Exchange structure: create a weakness only when a piece is ready to attack it.

21. Decision Framework

Exchange Minority Structure

PAWN BREAK / TRANSFORMATION	Prepare the central break with development; calculate the forced recapture and the first open-line move.
PIECE JOB	Give every piece a job that supports the center or the critical break.
TACTICAL WARNING	A premature ...b5 can leave c6 and c5 weak without creating a target.
TRADE FILTER	Exchange only when the favorable feature survives the trade.
ENDGAME FORECAST	Simplify only when the healthier structure, better minor piece, or more active king survives the trade.
CLOCK RULE	Spend time on forcing or irreversible decisions; move efficiently in familiar structures.

ACTIVE RECALL

1. Without looking back, describe the center and the position's main imbalance.
2. What is your first useful plan, and which piece must improve before the pawn break?
3. What is the opponent's best freeing move or tactical resource?
4. Which exchange helps, which exchange helps the opponent, and what survives into the ending?
5. State the memory rule in your own words and name one trigger that would change the plan.

NEXT-GAME ASSIGNMENT

If a similar structure appears, pause before the first irreversible decision and use this rule: Exchange structure: create a weakness only when a piece is ready to attack it.

22. Fantasy 3.f3 with ...e6

07 - Fantasy and Two Knights

READ THE POSITION

White builds a large center and supports e4 with the f-pawn while Black attacks through development.

PRIMARY PLAN

Use ...Bb4, ...Ne7, and ...c5 to challenge the center before White secures the king.

OPPONENT'S COUNTERPLAY

White gains space and may play Qd2, O-O-O, and g4.

REFERENCE LINE

1. e4 c6 2. d4 d5 3. f3 e6 4. Nc3 Nf6 5. Be3 Bb4 6. e5 Nfd7

MEMORY RULE

Fantasy: attack the center while White's king and f-pawn are uncoordinated.

22. Decision Framework

Fantasy 3.f3 with ...e6

PAWN BREAK / TRANSFORMATION	Prepare the central break with development; calculate the forced recapture and the first open-line move.
PIECE JOB	Give every piece a job that supports the center or the critical break.
TACTICAL WARNING	Opening the center is strong only if Black's king and c8-bishop can join quickly.
TRADE FILTER	Exchange only when the favorable feature survives the trade.
ENDGAME FORECAST	Simplify only when the healthier structure, better minor piece, or more active king survives the trade.
CLOCK RULE	Spend time on forcing or irreversible decisions; move efficiently in familiar structures.

ACTIVE RECALL

1. Without looking back, describe the center and the position's main imbalance.
2. What is your first useful plan, and which piece must improve before the pawn break?
3. What is the opponent's best freeing move or tactical resource?
4. Which exchange helps, which exchange helps the opponent, and what survives into the ending?
5. State the memory rule in your own words and name one trigger that would change the plan.

NEXT-GAME ASSIGNMENT

If a similar structure appears, pause before the first irreversible decision and use this rule: Fantasy: attack the center while White's king and f-pawn are uncoordinated.

23. Fantasy 3...Qb6

07 - Fantasy and Two Knights

READ THE POSITION

Black pressures d4 and b2 immediately and offers dynamic central play.

PRIMARY PLAN

Develop with ...Be6 or ...Nd7 after gaining a concrete tempo; do not let the queen replace development.

OPPONENT'S COUNTERPLAY

White uses exd5 or dxe5 and rapid development to hit the queen and f7.

REFERENCE LINE

1. e4 c6 2. d4 d5 3. f3 Qb6 4. Nc3 e5 5. dxe5 Bc5 6. Nh3

MEMORY RULE

Fantasy Qb6: take one useful tempo, then return to development.

23. Decision Framework

Fantasy 3...Qb6

PAWN BREAK / TRANSFORMATION	Prepare the central break with development; calculate the forced recapture and the first open-line move.
PIECE JOB	Give every piece a job that supports the center or the critical break.
TACTICAL WARNING	The queen on b6 can be trapped in tactical lines after Na4 and Be3.
TRADE FILTER	Exchange only when the favorable feature survives the trade.
ENDGAME FORECAST	Simplify only when the healthier structure, better minor piece, or more active king survives the trade.
CLOCK RULE	Spend time on forcing or irreversible decisions; move efficiently in familiar structures.

ACTIVE RECALL

1. Without looking back, describe the center and the position's main imbalance.
2. What is your first useful plan, and which piece must improve before the pawn break?
3. What is the opponent's best freeing move or tactical resource?
4. Which exchange helps, which exchange helps the opponent, and what survives into the ending?
5. State the memory rule in your own words and name one trigger that would change the plan.

NEXT-GAME ASSIGNMENT

If a similar structure appears, pause before the first irreversible decision and use this rule: Fantasy Qb6: take one useful tempo, then return to development.

24. Two Knights 3...Bg4

07 - Fantasy and Two Knights

READ THE POSITION

Black pins and exchanges a knight before establishing a solid center.

PRIMARY PLAN

Use ...e6, ...Nd7, and ...Ngf6 while making White's bishop pair prove useful.

OPPONENT'S COUNTERPLAY

White develops quickly and uses d4, Bd3, and O-O-O for activity.

REFERENCE LINE

1. e4 c6 2. Nf3 d5 3. Nc3 Bg4 4. h3 Bxf3 5. Qxf3 e6 6. d4 Nf6

MEMORY RULE

Two Knights: exchange for structure or tempo, not simply to remove a knight.

24. Decision Framework

Two Knights 3...Bg4

PAWN BREAK / TRANSFORMATION	Prepare the central break with development; calculate the forced recapture and the first open-line move.
PIECE JOB	Give every piece a job that supports the center or the critical break.
TACTICAL WARNING	Giving up the bishop is bad if Black cannot challenge d4 and the dark squares.
TRADE FILTER	Exchange only when the favorable feature survives the trade.
ENDGAME FORECAST	Simplify only when the healthier structure, better minor piece, or more active king survives the trade.
CLOCK RULE	Spend time on forcing or irreversible decisions; move efficiently in familiar structures.

ACTIVE RECALL

1. Without looking back, describe the center and the position's main imbalance.
2. What is your first useful plan, and which piece must improve before the pawn break?
3. What is the opponent's best freeing move or tactical resource?
4. Which exchange helps, which exchange helps the opponent, and what survives into the ending?
5. State the memory rule in your own words and name one trigger that would change the plan.

NEXT-GAME ASSIGNMENT

If a similar structure appears, pause before the first irreversible decision and use this rule: Two Knights: exchange for structure or tempo, not simply to remove a knight.

25. Hillbilly Attack

08 - Sidelines and Repertoire Choices

READ THE POSITION

White develops the bishop aggressively before building the center, inviting Black to gain time with ...d5.

PRIMARY PLAN

Challenge the bishop, develop with tempo, and reach an improved Exchange structure.

OPPONENT'S COUNTERPLAY

White seeks Qe2, Nf3, and pressure on d5 or f7.

REFERENCE LINE

1. e4 c6 2. Bc4 d5 3. exd5 cxd5 4. Bb5+ Bd7 5. Bxd7+ Qxd7 6. d4

MEMORY RULE

Hillbilly: use ...d5 to gain development, not merely chase the bishop.

25. Decision Framework

Hillbilly Attack

PAWN BREAK / TRANSFORMATION	Prepare the central break with development; calculate the forced recapture and the first open-line move.
PIECE JOB	Give every piece a job that supports the center or the critical break.
TACTICAL WARNING	Winning bishop tempi is pointless if the queen on d7 blocks development and becomes a target.
TRADE FILTER	Exchange only when the favorable feature survives the trade.
ENDGAME FORECAST	Simplify only when the healthier structure, better minor piece, or more active king survives the trade.
CLOCK RULE	Spend time on forcing or irreversible decisions; move efficiently in familiar structures.

ACTIVE RECALL

1. Without looking back, describe the center and the position's main imbalance.
2. What is your first useful plan, and which piece must improve before the pawn break?
3. What is the opponent's best freeing move or tactical resource?
4. Which exchange helps, which exchange helps the opponent, and what survives into the ending?
5. State the memory rule in your own words and name one trigger that would change the plan.

NEXT-GAME ASSIGNMENT

If a similar structure appears, pause before the first irreversible decision and use this rule: Hillbilly: use ...d5 to gain development, not merely chase the bishop.

26. Accelerated Panov 2.c4

08 - Sidelines and Repertoire Choices

READ THE POSITION

White reaches a Panov structure while keeping move-order options open.

PRIMARY PLAN

Treat the position as an IQP game: develop, blockade d5, and resist early material hunting.

OPPONENT'S COUNTERPLAY

White uses cxd5, Nf3, and active piece play against the center.

REFERENCE LINE

1. e4 c6 2. c4 d5 3. exd5 cxd5 4. d4 Nf6 5. Nc3 e6

MEMORY RULE

Accelerated Panov: recognize the structure, then check the move-order detail.

26. Decision Framework

Accelerated Panov 2.c4

PAWN BREAK / TRANSFORMATION	Prepare the central break with development; calculate the forced recapture and the first open-line move.
PIECE JOB	Give every piece a job that supports the center or the critical break.
TACTICAL WARNING	The move order can permit Bb5+ or Qb3 tactics that differ from the standard Panov.
TRADE FILTER	Exchange only when the favorable feature survives the trade.
ENDGAME FORECAST	Simplify only when the healthier structure, better minor piece, or more active king survives the trade.
CLOCK RULE	Spend time on forcing or irreversible decisions; move efficiently in familiar structures.

ACTIVE RECALL

1. Without looking back, describe the center and the position's main imbalance.
2. What is your first useful plan, and which piece must improve before the pawn break?
3. What is the opponent's best freeing move or tactical resource?
4. Which exchange helps, which exchange helps the opponent, and what survives into the ending?
5. State the memory rule in your own words and name one trigger that would change the plan.

NEXT-GAME ASSIGNMENT

If a similar structure appears, pause before the first irreversible decision and use this rule: Accelerated Panov: recognize the structure, then check the move-order detail.

27. Breyer 2.d3

08 - Sidelines and Repertoire Choices

READ THE POSITION

White avoids the main center and builds a restrained kingside setup while Black occupies e5 and d5.

PRIMARY PLAN

Use central space, develop the kingside, and prepare ...O-O and ...Re8 before expanding.

OPPONENT'S COUNTERPLAY

White uses Bg2, O-O, and Re1 to attack e5 or build a kingside plan.

REFERENCE LINE

1. e4 c6 2. d3 d5 3. Nd2 e5 4. Ngf3 Bd6 5. g3 Nf6

MEMORY RULE

Breyer: take the center, but keep a break available.

27. Decision Framework

Breyer 2.d3

PAWN BREAK / TRANSFORMATION	Prepare the central break with development; calculate the forced recapture and the first open-line move.
PIECE JOB	Give every piece a job that supports the center or the critical break.
TACTICAL WARNING	Closing the center without queenside play can allow a free King's Indian Attack.
TRADE FILTER	Exchange only when the favorable feature survives the trade.
ENDGAME FORECAST	Simplify only when the healthier structure, better minor piece, or more active king survives the trade.
CLOCK RULE	Spend time on forcing or irreversible decisions; move efficiently in familiar structures.

ACTIVE RECALL

1. Without looking back, describe the center and the position's main imbalance.
2. What is your first useful plan, and which piece must improve before the pawn break?
3. What is the opponent's best freeing move or tactical resource?
4. Which exchange helps, which exchange helps the opponent, and what survives into the ending?
5. State the memory rule in your own words and name one trigger that would change the plan.

NEXT-GAME ASSIGNMENT

If a similar structure appears, pause before the first irreversible decision and use this rule: Breyer: take the center, but keep a break available.

28. Apocalypse Attack

08 - Sidelines and Repertoire Choices

READ THE POSITION

White centralizes the knight early and creates tactical pressure on f7 and b5.

PRIMARY PLAN

Develop with ...Nf6, challenge the e5-knight, and avoid weakening f7 with unnecessary pawn moves.

OPPONENT'S COUNTERPLAY

White uses Bb5+, d4, and Bf4 for rapid activity.

REFERENCE LINE

1. e4 c6 2. Nf3 d5 3. exd5 cxd5 4. Ne5 Nf6 5. d4

MEMORY RULE

Apocalypse: challenge the advanced knight through development.

28. Decision Framework

Apocalypse Attack

PAWN BREAK / TRANSFORMATION	Prepare the central break with development; calculate the forced recapture and the first open-line move.
PIECE JOB	Give every piece a job that supports the center or the critical break.
TACTICAL WARNING	Qa5+ ideas can win tempi, but the queen must not allow Bb5 with a discovered attack.
TRADE FILTER	Exchange only when the favorable feature survives the trade.
ENDGAME FORECAST	Simplify only when the healthier structure, better minor piece, or more active king survives the trade.
CLOCK RULE	Spend time on forcing or irreversible decisions; move efficiently in familiar structures.

ACTIVE RECALL

1. Without looking back, describe the center and the position's main imbalance.
2. What is your first useful plan, and which piece must improve before the pawn break?
3. What is the opponent's best freeing move or tactical resource?
4. Which exchange helps, which exchange helps the opponent, and what survives into the ending?
5. State the memory rule in your own words and name one trigger that would change the plan.

NEXT-GAME ASSIGNMENT

If a similar structure appears, pause before the first irreversible decision and use this rule: Apocalypse: challenge the advanced knight through development.

29. 2.Ne2 System

08 - Sidelines and Repertoire Choices

READ THE POSITION

White keeps both c- and f-pawns flexible and supports a delayed Advance structure.

PRIMARY PLAN

Develop the bishop, attack d4 with ...c5, and use the unusual knight placement as a target for tempi.

OPPONENT'S COUNTERPLAY

White uses h4-h5 or f4-f5 while the knight supports g3 and f4.

REFERENCE LINE 1. e4 c6 2. Ne2 d5 3. e5 Bf5 4. Ng3 Bg6 5. d4

MEMORY RULE

Against Ne2: recognize the Advance plan before it announces itself.

29. Decision Framework

2.Ne2 System

PAWN BREAK / TRANSFORMATION	Prepare the central break with development; calculate the forced recapture and the first open-line move.
PIECE JOB	Give every piece a job that supports the center or the critical break.
TACTICAL WARNING	The bishop can be trapped by h4-h5 if Black treats the move order as harmless.
TRADE FILTER	Exchange only when the favorable feature survives the trade.
ENDGAME FORECAST	Simplify only when the healthier structure, better minor piece, or more active king survives the trade.
CLOCK RULE	Spend time on forcing or irreversible decisions; move efficiently in familiar structures.

ACTIVE RECALL

1. Without looking back, describe the center and the position's main imbalance.
2. What is your first useful plan, and which piece must improve before the pawn break?
3. What is the opponent's best freeing move or tactical resource?
4. Which exchange helps, which exchange helps the opponent, and what survives into the ending?
5. State the memory rule in your own words and name one trigger that would change the plan.

NEXT-GAME ASSIGNMENT

If a similar structure appears, pause before the first irreversible decision and use this rule: Against Ne2: recognize the Advance plan before it announces itself.

30. 2.b3 Fianchetto

08 - Sidelines and Repertoire Choices

READ THE POSITION

White uses the b2-bishop to pressure e5 and g7 while Black occupies and defends the center.

PRIMARY PLAN

Develop the light bishop actively, return the e4-pawn if needed, and complete development without queen greed.

OPPONENT'S COUNTERPLAY

White uses O-O-O, f3, and the long diagonal for compensation.

REFERENCE LINE

1. e4 c6 2. b3 d5 3. Bb2 dxe4 4. Nc3 Nf6 5. Qe2 Bf5

MEMORY RULE

Against b3: use the center, but do not let one pawn imprison the army.

30. Decision Framework

2.b3 Fianchetto

PAWN BREAK / TRANSFORMATION	Prepare the central break with development; calculate the forced recapture and the first open-line move.
PIECE JOB	Give every piece a job that supports the center or the critical break.
TACTICAL WARNING	Holding e4 with pieces can expose b7 and the queen to a long-diagonal tactic.
TRADE FILTER	Exchange only when the favorable feature survives the trade.
ENDGAME FORECAST	Simplify only when the healthier structure, better minor piece, or more active king survives the trade.
CLOCK RULE	Spend time on forcing or irreversible decisions; move efficiently in familiar structures.

ACTIVE RECALL

1. Without looking back, describe the center and the position's main imbalance.
2. What is your first useful plan, and which piece must improve before the pawn break?
3. What is the opponent's best freeing move or tactical resource?
4. Which exchange helps, which exchange helps the opponent, and what survives into the ending?
5. State the memory rule in your own words and name one trigger that would change the plan.

NEXT-GAME ASSIGNMENT

If a similar structure appears, pause before the first irreversible decision and use this rule: Against b3: use the center, but do not let one pawn imprison the army.

Course Completion Test

Choose ten chapters at random. Rebuild each reference position, name both sides' plans, identify the critical break, and state the trade filter without reopening the chapter.

Score one point for the structure, one for your plan, one for counterplay, one for the break, and one for the memory rule. Forty out of fifty means the knowledge is usable; below forty means retrieval practice should continue.

FINAL PRINCIPLE

A course is complete when its ideas appear in your decisions, not when its pages have been read.
