The Slav Defense for White

Main-line a4, Geller ideas, Chebanenko, ...Bf5 systems, and pawn recovery

TRAINING WORKBOOK

20 focused chapters - model positions - decision rules - retrieval practice

Designed to change what you notice, calculate, remember, and do at the board.

Workbook Method

Attempt each page before reopening the matching course-book chapter. Speak answers aloud or write them. The self-score rewards a clear decision rule and the opponent's best reply, not a lucky move guess.

REVIEW THRESHOLD

8-10: review in one week. 5-7: review tomorrow. 0-4: reread the course chapter now, then retry from a blank board.

Use the workbook again after a game reaches a related structure. Real-game retrieval is the final test.

Monthly Retention Audit

Select ten random chapters and complete them under a ten-minute total limit. Track the categories you repeatedly miss: threat, candidate, structure, piece job, or forecast.

Do not restart the entire course. Return to the smallest group of chapters that repairs the repeated error, then test again in one week.
