

COMPLETE CHESS LEARNING LIBRARY

Theory Training and Tournament Use

Remember the repertoire, handle deviations, update from games, and prepare efficiently

COURSE BOOK

20 focused chapters - model positions - decision rules - retrieval practice

Designed to change what you notice, calculate, remember, and do at the board.

How to Use This Course

ONE CHAPTER, FOUR PASSES

1. Read the position without moving pieces. 2. State your plan and the opponent's counterplay. 3. Study the decision rules. 4. Close the book and reconstruct the position from memory.

RETRIEVAL SCHEDULE

Review the chapter the next day, one week later, and after a game that reaches a similar structure. Retrieval is more valuable than rereading.

BOARD ROUTINE

Opponent's threat - forcing moves - loose pieces - worst piece - central break - best reply - choose and stop.

The course book explains each model position. The separate workbook forces recall, prediction, and self-scoring. Use the book first, then attempt the matching workbook page without looking back.

Engine evaluations are intentionally not the lesson. The aim is to store human decision rules that remain useful when the exact move order changes.

Course Map

MODULE	CHAPTERS
THEORY TRAINING AND TOURNAMENT USE	20

01. Build the Repertoire Map

THEORY TRAINING AND TOURNAMENT USE

READ THE POSITION

The course has one answer family for every major Black setup.

PRIMARY PLAN

Draw the decision tree from 1.d4 and 2.c4 without move details.

OPPONENT'S COUNTERPLAY

Black's best resource is the freeing move, tactical exchange, or piece improvement that challenges this plan.

REFERENCE LINE

1. d4 d5 2. c4

MEMORY RULE

First remember families, then branches.

01. Decision Framework

Build the Repertoire Map

PAWN BREAK / TRANSFORMATION	Before an irreversible pawn move, picture the forced recapture, new files, new diagonals, and the first piece to use them.
PIECE JOB	Identify the least active piece and give it a route that supports the structure's main break or target.
TACTICAL WARNING	Verify the plan with checks, captures, threats, loose pieces, pins, and Black's strongest reply.
TRADE FILTER	Exchange only after naming the favorable feature that survives the recapture.
ENDGAME FORECAST	Forecast the king activity, pawn targets, files, majorities, and minor-piece quality that survive simplification.
CLOCK RULE	Spend time on forcing or irreversible choices; move efficiently only in a position you truly recognize.

ACTIVE RECALL

1. Without looking back, describe the center and the position's main imbalance.
2. What is your first useful plan, and which piece must improve before the pawn break?
3. What is the opponent's best freeing move or tactical resource?
4. Which exchange helps, which exchange helps the opponent, and what survives into the ending?
5. State the memory rule in your own words and name one trigger that would change the plan.

NEXT-GAME ASSIGNMENT

If a similar structure appears, pause before the first irreversible decision and use this rule: First remember families, then branches.

02. First Ten Moves Against ...d5

THEORY TRAINING AND TOURNAMENT USE

READ THE POSITION

The normal Queen's Gambit setup provides a safe starting shell.

PRIMARY PLAN

Reconstruct Nf3, Nc3, e3, bishop development, and castling while naming Black's deviations.

OPPONENT'S COUNTERPLAY

Black's best resource is the freeing move, tactical exchange, or piece improvement that challenges this plan.

REFERENCE LINE

1. d4 Nf6 2. c4 e6 3. Nf3 d5 4. Nc3

MEMORY RULE

Know the shell and the moves that change it.

02. Decision Framework

First Ten Moves Against ...d5

PAWN BREAK / TRANSFORMATION	Before an irreversible pawn move, picture the forced recapture, new files, new diagonals, and the first piece to use them.
PIECE JOB	Identify the least active piece and give it a route that supports the structure's main break or target.
TACTICAL WARNING	Verify the plan with checks, captures, threats, loose pieces, pins, and Black's strongest reply.
TRADE FILTER	Exchange only after naming the favorable feature that survives the recapture.
ENDGAME FORECAST	Forecast the king activity, pawn targets, files, majorities, and minor-piece quality that survive simplification.
CLOCK RULE	Spend time on forcing or irreversible choices; move efficiently only in a position you truly recognize.

ACTIVE RECALL

1. Without looking back, describe the center and the position's main imbalance.
2. What is your first useful plan, and which piece must improve before the pawn break?
3. What is the opponent's best freeing move or tactical resource?
4. Which exchange helps, which exchange helps the opponent, and what survives into the ending?
5. State the memory rule in your own words and name one trigger that would change the plan.

NEXT-GAME ASSIGNMENT

If a similar structure appears, pause before the first irreversible decision and use this rule: Know the shell and the moves that change it.

03. First Ten Moves Against ...Nf6

THEORY TRAINING AND TOURNAMENT USE

READ THE POSITION

Black's second move identifies the Indian family.

PRIMARY PLAN

Classify ...e6, ...g6, ...c5, and ...d5 before recalling a line.

OPPONENT'S COUNTERPLAY

Black's best resource is the freeing move, tactical exchange, or piece improvement that challenges this plan.

REFERENCE LINE

1. d4 d5 2. c4 e6 3. Nc3 c5 4. e3 Nf6 5. Nf3 Nc6 6. a3 a6 7. dxc5 Bxc5 8. b4 Bd6 9. Bb2 O-O

MEMORY RULE

Recognize the family before retrieving theory.

03. Decision Framework

First Ten Moves Against ...Nf6

PAWN BREAK / TRANSFORMATION	Before an irreversible pawn move, picture the forced recapture, new files, new diagonals, and the first piece to use them.
PIECE JOB	Identify the least active piece and give it a route that supports the structure's main break or target.
TACTICAL WARNING	Verify the plan with checks, captures, threats, loose pieces, pins, and Black's strongest reply.
TRADE FILTER	Exchange only after naming the favorable feature that survives the recapture.
ENDGAME FORECAST	Forecast the king activity, pawn targets, files, majorities, and minor-piece quality that survive simplification.
CLOCK RULE	Spend time on forcing or irreversible choices; move efficiently only in a position you truly recognize.

ACTIVE RECALL

1. Without looking back, describe the center and the position's main imbalance.
2. What is your first useful plan, and which piece must improve before the pawn break?
3. What is the opponent's best freeing move or tactical resource?
4. Which exchange helps, which exchange helps the opponent, and what survives into the ending?
5. State the memory rule in your own words and name one trigger that would change the plan.

NEXT-GAME ASSIGNMENT

If a similar structure appears, pause before the first irreversible decision and use this rule: Recognize the family before retrieving theory.

04. First Ten Moves Against ...f5

THEORY TRAINING AND TOURNAMENT USE

READ THE POSITION

The Dutch changes king safety and e4 control immediately.

PRIMARY PLAN

Use the fianchetto setup and challenge Black's center before attacking the king.

OPPONENT'S COUNTERPLAY

Black's best resource is the freeing move, tactical exchange, or piece improvement that challenges this plan.

REFERENCE LINE

1. d4 d5 2. c4 dxc4 3. Nf3 Nf6 4. e3 e6 5. Bxc4 c5 6. O-O a6

MEMORY RULE

Secure the center before exploiting the weakened king.

04. Decision Framework

First Ten Moves Against ...f5

PAWN BREAK / TRANSFORMATION	Before an irreversible pawn move, picture the forced recapture, new files, new diagonals, and the first piece to use them.
PIECE JOB	Identify the least active piece and give it a route that supports the structure's main break or target.
TACTICAL WARNING	Verify the plan with checks, captures, threats, loose pieces, pins, and Black's strongest reply.
TRADE FILTER	Exchange only after naming the favorable feature that survives the recapture.
ENDGAME FORECAST	Forecast the king activity, pawn targets, files, majorities, and minor-piece quality that survive simplification.
CLOCK RULE	Spend time on forcing or irreversible choices; move efficiently only in a position you truly recognize.

ACTIVE RECALL

1. Without looking back, describe the center and the position's main imbalance.
2. What is your first useful plan, and which piece must improve before the pawn break?
3. What is the opponent's best freeing move or tactical resource?
4. Which exchange helps, which exchange helps the opponent, and what survives into the ending?
5. State the memory rule in your own words and name one trigger that would change the plan.

NEXT-GAME ASSIGNMENT

If a similar structure appears, pause before the first irreversible decision and use this rule: Secure the center before exploiting the weakened king.

05. Rare-Defense Safety Net

THEORY TRAINING AND TOURNAMENT USE

READ THE POSITION

Unusual moves often sacrifice soundness for surprise.

PRIMARY PLAN

Build the center, develop, and calculate threats before trying to refute the opening.

OPPONENT'S COUNTERPLAY

Black's best resource is the freeing move, tactical exchange, or piece improvement that challenges this plan.

REFERENCE LINE

1. d4 d5 2. c4 dxc4 3. Nf3 c5 4. e3 cxd4 5. exd4 Nf6 6. Bxc4

MEMORY RULE

Do not reward surprise with panic.

05. Decision Framework

Rare-Defense Safety Net

PAWN BREAK / TRANSFORMATION	Before an irreversible pawn move, picture the forced recapture, new files, new diagonals, and the first piece to use them.
PIECE JOB	Identify the least active piece and give it a route that supports the structure's main break or target.
TACTICAL WARNING	Verify the plan with checks, captures, threats, loose pieces, pins, and Black's strongest reply.
TRADE FILTER	Exchange only after naming the favorable feature that survives the recapture.
ENDGAME FORECAST	Forecast the king activity, pawn targets, files, majorities, and minor-piece quality that survive simplification.
CLOCK RULE	Spend time on forcing or irreversible choices; move efficiently only in a position you truly recognize.

ACTIVE RECALL

1. Without looking back, describe the center and the position's main imbalance.
2. What is your first useful plan, and which piece must improve before the pawn break?
3. What is the opponent's best freeing move or tactical resource?
4. Which exchange helps, which exchange helps the opponent, and what survives into the ending?
5. State the memory rule in your own words and name one trigger that would change the plan.

NEXT-GAME ASSIGNMENT

If a similar structure appears, pause before the first irreversible decision and use this rule: Do not reward surprise with panic.

06. Learn One Branch at a Time

THEORY TRAINING AND TOURNAMENT USE

READ THE POSITION

Deep study is retained when each session has a small decision boundary.

PRIMARY PLAN

Study the main line, one deviation, and the resulting plan.

OPPONENT'S COUNTERPLAY

Black's best resource is the freeing move, tactical exchange, or piece improvement that challenges this plan.

REFERENCE LINE

1. d4 d5 2. c4 dxc4 3. Nf3 a6 4. e3 b5 5. a4 Bb7 6. axb5 axb5 7. Rxa8 Bxa8

MEMORY RULE

One branch mastered beats ten branches skimmed.

06. Decision Framework

Learn One Branch at a Time

PAWN BREAK / TRANSFORMATION	Before an irreversible pawn move, picture the forced recapture, new files, new diagonals, and the first piece to use them.
PIECE JOB	Identify the least active piece and give it a route that supports the structure's main break or target.
TACTICAL WARNING	Verify the plan with checks, captures, threats, loose pieces, pins, and Black's strongest reply.
TRADE FILTER	Exchange only after naming the favorable feature that survives the recapture.
ENDGAME FORECAST	Forecast the king activity, pawn targets, files, majorities, and minor-piece quality that survive simplification.
CLOCK RULE	Spend time on forcing or irreversible choices; move efficiently only in a position you truly recognize.

ACTIVE RECALL

1. Without looking back, describe the center and the position's main imbalance.
2. What is your first useful plan, and which piece must improve before the pawn break?
3. What is the opponent's best freeing move or tactical resource?
4. Which exchange helps, which exchange helps the opponent, and what survives into the ending?
5. State the memory rule in your own words and name one trigger that would change the plan.

NEXT-GAME ASSIGNMENT

If a similar structure appears, pause before the first irreversible decision and use this rule: One branch mastered beats ten branches skimmed.

07. Create Repertoire Flashcards

THEORY TRAINING AND TOURNAMENT USE

READ THE POSITION

Useful cards ask for a move, reason, counterplay, and plan from a position.

PRIMARY PLAN

Use the diagram on the front and a four-part answer on the back.

OPPONENT'S COUNTERPLAY

Black's best resource is the freeing move, tactical exchange, or piece improvement that challenges this plan.

REFERENCE LINE

1. d4 d5 2. c4 e6 3. Nc3 Nf6 4. cxd5 exd5 5. Nf3 c6 6. Bg5 Be7 7. Qc2 O-O 8. e3 Nbd7 9. Bd3 Re8 10. O-O

MEMORY RULE

Test decisions, not notation alone.

07. Decision Framework

Create Repertoire Flashcards

PAWN BREAK / TRANSFORMATION	Before an irreversible pawn move, picture the forced recapture, new files, new diagonals, and the first piece to use them.
PIECE JOB	Identify the least active piece and give it a route that supports the structure's main break or target.
TACTICAL WARNING	Verify the plan with checks, captures, threats, loose pieces, pins, and Black's strongest reply.
TRADE FILTER	Exchange only after naming the favorable feature that survives the recapture.
ENDGAME FORECAST	Forecast the king activity, pawn targets, files, majorities, and minor-piece quality that survive simplification.
CLOCK RULE	Spend time on forcing or irreversible choices; move efficiently only in a position you truly recognize.

ACTIVE RECALL

1. Without looking back, describe the center and the position's main imbalance.
2. What is your first useful plan, and which piece must improve before the pawn break?
3. What is the opponent's best freeing move or tactical resource?
4. Which exchange helps, which exchange helps the opponent, and what survives into the ending?
5. State the memory rule in your own words and name one trigger that would change the plan.

NEXT-GAME ASSIGNMENT

If a similar structure appears, pause before the first irreversible decision and use this rule: Test decisions, not notation alone.

08. Store Tabiya Positions

THEORY TRAINING AND TOURNAMENT USE

READ THE POSITION

Landmarks compress many move orders into one meaningful memory.

PRIMARY PLAN

Rebuild each tabiya and state the center, breaks, and piece jobs.

OPPONENT'S COUNTERPLAY

Black's best resource is the freeing move, tactical exchange, or piece improvement that challenges this plan.

REFERENCE LINE

1. d4 d5 2. c4 e6 3. Nc3 Nf6 4. cxd5 exd5 5. Bg5 Be7 6. e3 O-O 7. Bd3 Nbd7 8. Qc2 Re8 9. Nge2 Nf8 10. O-O

MEMORY RULE

A tabiya is a position plus a decision model.

08. Decision Framework

Store Tabiya Positions

PAWN BREAK / TRANSFORMATION	Before an irreversible pawn move, picture the forced recapture, new files, new diagonals, and the first piece to use them.
PIECE JOB	Identify the least active piece and give it a route that supports the structure's main break or target.
TACTICAL WARNING	Verify the plan with checks, captures, threats, loose pieces, pins, and Black's strongest reply.
TRADE FILTER	Exchange only after naming the favorable feature that survives the recapture.
ENDGAME FORECAST	Forecast the king activity, pawn targets, files, majorities, and minor-piece quality that survive simplification.
CLOCK RULE	Spend time on forcing or irreversible choices; move efficiently only in a position you truly recognize.

ACTIVE RECALL

1. Without looking back, describe the center and the position's main imbalance.
2. What is your first useful plan, and which piece must improve before the pawn break?
3. What is the opponent's best freeing move or tactical resource?
4. Which exchange helps, which exchange helps the opponent, and what survives into the ending?
5. State the memory rule in your own words and name one trigger that would change the plan.

NEXT-GAME ASSIGNMENT

If a similar structure appears, pause before the first irreversible decision and use this rule: A tabiya is a position plus a decision model.

09. Use Spaced Repetition

THEORY TRAINING AND TOURNAMENT USE

READ THE POSITION

Theory fades unless recall is spaced after learning.

PRIMARY PLAN

Review after one day, one week, one month, and after every related game.

OPPONENT'S COUNTERPLAY

Black's best resource is the freeing move, tactical exchange, or piece improvement that challenges this plan.

REFERENCE LINE

1. d4 d5 2. c4 e6 3. Nc3 Nf6 4. cxd5 exd5 5. Bg5 Be7 6. e3 O-O 7. Bd3 Nbd7 8. Qc2 Re8 9. Nge2 Nf8 10. O-O

MEMORY RULE

Repetition should be retrieval, not rereading.

09. Decision Framework

Use Spaced Repetition

PAWN BREAK / TRANSFORMATION	Before an irreversible pawn move, picture the forced recapture, new files, new diagonals, and the first piece to use them.
PIECE JOB	Identify the least active piece and give it a route that supports the structure's main break or target.
TACTICAL WARNING	Verify the plan with checks, captures, threats, loose pieces, pins, and Black's strongest reply.
TRADE FILTER	Exchange only after naming the favorable feature that survives the recapture.
ENDGAME FORECAST	Forecast the king activity, pawn targets, files, majorities, and minor-piece quality that survive simplification.
CLOCK RULE	Spend time on forcing or irreversible choices; move efficiently only in a position you truly recognize.

ACTIVE RECALL

1. Without looking back, describe the center and the position's main imbalance.
2. What is your first useful plan, and which piece must improve before the pawn break?
3. What is the opponent's best freeing move or tactical resource?
4. Which exchange helps, which exchange helps the opponent, and what survives into the ending?
5. State the memory rule in your own words and name one trigger that would change the plan.

NEXT-GAME ASSIGNMENT

If a similar structure appears, pause before the first irreversible decision and use this rule: Repetition should be retrieval, not rereading.

10. Pregame Warmup

THEORY TRAINING AND TOURNAMENT USE

READ THE POSITION

A short review activates the relevant opening map without exhausting concentration.

PRIMARY PLAN

Rebuild three key positions and solve one tactical warning.

OPPONENT'S COUNTERPLAY

Black's best resource is the freeing move, tactical exchange, or piece improvement that challenges this plan.

REFERENCE LINE

1. d4 d5 2. c4 e6 3. Nc3 Nf6 4. Bg5 Be7 5. e3 O-O 6. Nf3 h6 7. Bh4 Ne4 8. Bxe7 Qxe7 9. Rc1 c6 10. Bd3 Nxc3 11. Rxc3 dxc4 12. Bxc4

MEMORY RULE

Warm memory; do not cram branches.

10. Decision Framework

Pregame Warmup

PAWN BREAK / TRANSFORMATION	Before an irreversible pawn move, picture the forced recapture, new files, new diagonals, and the first piece to use them.
PIECE JOB	Identify the least active piece and give it a route that supports the structure's main break or target.
TACTICAL WARNING	Verify the plan with checks, captures, threats, loose pieces, pins, and Black's strongest reply.
TRADE FILTER	Exchange only after naming the favorable feature that survives the recapture.
ENDGAME FORECAST	Forecast the king activity, pawn targets, files, majorities, and minor-piece quality that survive simplification.
CLOCK RULE	Spend time on forcing or irreversible choices; move efficiently only in a position you truly recognize.

ACTIVE RECALL

1. Without looking back, describe the center and the position's main imbalance.
2. What is your first useful plan, and which piece must improve before the pawn break?
3. What is the opponent's best freeing move or tactical resource?
4. Which exchange helps, which exchange helps the opponent, and what survives into the ending?
5. State the memory rule in your own words and name one trigger that would change the plan.

NEXT-GAME ASSIGNMENT

If a similar structure appears, pause before the first irreversible decision and use this rule: Warm memory; do not cram branches.

11. Postgame Repertoire Update

THEORY TRAINING AND TOURNAMENT USE

READ THE POSITION

Real games reveal which branch actually needs more theory.

PRIMARY PLAN

Find the first unfamiliar position and add one human rule.

OPPONENT'S COUNTERPLAY

Black's best resource is the freeing move, tactical exchange, or piece improvement that challenges this plan.

REFERENCE LINE

1. d4 d5 2. c4 e6 3. Nc3 Nf6 4. Bg5 Nbd7 5. e3 c6 6. Nf3 Qa5 7. Nd2 Bb4 8. Qc2 O-O 9. Be2 dxc4 10. Bxf6 Nxf6 11. Nxc4 Qc7 12. O-O

MEMORY RULE

Update from games, not from fear of every possibility.

11. Decision Framework

Postgame Repertoire Update

PAWN BREAK / TRANSFORMATION	Before an irreversible pawn move, picture the forced recapture, new files, new diagonals, and the first piece to use them.
PIECE JOB	Identify the least active piece and give it a route that supports the structure's main break or target.
TACTICAL WARNING	Verify the plan with checks, captures, threats, loose pieces, pins, and Black's strongest reply.
TRADE FILTER	Exchange only after naming the favorable feature that survives the recapture.
ENDGAME FORECAST	Forecast the king activity, pawn targets, files, majorities, and minor-piece quality that survive simplification.
CLOCK RULE	Spend time on forcing or irreversible choices; move efficiently only in a position you truly recognize.

ACTIVE RECALL

1. Without looking back, describe the center and the position's main imbalance.
2. What is your first useful plan, and which piece must improve before the pawn break?
3. What is the opponent's best freeing move or tactical resource?
4. Which exchange helps, which exchange helps the opponent, and what survives into the ending?
5. State the memory rule in your own words and name one trigger that would change the plan.

NEXT-GAME ASSIGNMENT

If a similar structure appears, pause before the first irreversible decision and use this rule: Update from games, not from fear of every possibility.

12. Use the Engine Correctly

THEORY TRAINING AND TOURNAMENT USE

READ THE POSITION

Engine moves become useful only after they are translated into reasons and alternatives.

PRIMARY PLAN

Compare your candidate, Black's best reply, and the engine move, then write the structural lesson.

OPPONENT'S COUNTERPLAY

Black's best resource is the freeing move, tactical exchange, or piece improvement that challenges this plan.

REFERENCE LINE

1. d4 d5 2. c4 e6 3. Nc3 Nf6 4. Bg5 Be7 5. e3 O-O 6. Nf3 h6 7. Bh4 Ne4 8. Bxe7 Qxe7 9. Rc1 c6 10. Bd3 Nxc3 11. Rxc3 dxc4 12. Bxc4

MEMORY RULE

Store why the move works, not the evaluation number.

12. Decision Framework

Use the Engine Correctly

PAWN BREAK / TRANSFORMATION	Before an irreversible pawn move, picture the forced recapture, new files, new diagonals, and the first piece to use them.
PIECE JOB	Identify the least active piece and give it a route that supports the structure's main break or target.
TACTICAL WARNING	Verify the plan with checks, captures, threats, loose pieces, pins, and Black's strongest reply.
TRADE FILTER	Exchange only after naming the favorable feature that survives the recapture.
ENDGAME FORECAST	Forecast the king activity, pawn targets, files, majorities, and minor-piece quality that survive simplification.
CLOCK RULE	Spend time on forcing or irreversible choices; move efficiently only in a position you truly recognize.

ACTIVE RECALL

1. Without looking back, describe the center and the position's main imbalance.
2. What is your first useful plan, and which piece must improve before the pawn break?
3. What is the opponent's best freeing move or tactical resource?
4. Which exchange helps, which exchange helps the opponent, and what survives into the ending?
5. State the memory rule in your own words and name one trigger that would change the plan.

NEXT-GAME ASSIGNMENT

If a similar structure appears, pause before the first irreversible decision and use this rule: Store why the move works, not the evaluation number.

13. Study Model Games

THEORY TRAINING AND TOURNAMENT USE

READ THE POSITION

A model game connects the opening advantage to a middlegame plan and ending.

PRIMARY PLAN

Pause before every pawn break and predict the plan.

OPPONENT'S COUNTERPLAY

Black's best resource is the freeing move, tactical exchange, or piece improvement that challenges this plan.

REFERENCE LINE

1. d4 d5 2. c4 e6 3. Nc3 Nf6 4. Nf3 Bb4 5. Qa4+ Nc6 6. e3 O-O 7. Bd2 Re8 8. cxd5 exd5 9. Bd3

MEMORY RULE

The opening is learned when you can continue after theory ends.

13. Decision Framework

Study Model Games

PAWN BREAK / TRANSFORMATION	Before an irreversible pawn move, picture the forced recapture, new files, new diagonals, and the first piece to use them.
PIECE JOB	Identify the least active piece and give it a route that supports the structure's main break or target.
TACTICAL WARNING	Verify the plan with checks, captures, threats, loose pieces, pins, and Black's strongest reply.
TRADE FILTER	Exchange only after naming the favorable feature that survives the recapture.
ENDGAME FORECAST	Forecast the king activity, pawn targets, files, majorities, and minor-piece quality that survive simplification.
CLOCK RULE	Spend time on forcing or irreversible choices; move efficiently only in a position you truly recognize.

ACTIVE RECALL

1. Without looking back, describe the center and the position's main imbalance.
2. What is your first useful plan, and which piece must improve before the pawn break?
3. What is the opponent's best freeing move or tactical resource?
4. Which exchange helps, which exchange helps the opponent, and what survives into the ending?
5. State the memory rule in your own words and name one trigger that would change the plan.

NEXT-GAME ASSIGNMENT

If a similar structure appears, pause before the first irreversible decision and use this rule: The opening is learned when you can continue after theory ends.

14. Low-Focus Protocol

THEORY TRAINING AND TOURNAMENT USE

READ THE POSITION

On difficult days, decision quality needs a shorter but reliable routine.

PRIMARY PLAN

Use threat, forcing moves, loose pieces, center, and worst piece; stop the session after repeated routine failures.

OPPONENT'S COUNTERPLAY

Black's best resource is the freeing move, tactical exchange, or piece improvement that challenges this plan.

REFERENCE LINE

1. d4 d5 2. c4 e6 3. Nc3 c5 4. e3 Nf6 5. Nf3 Nc6 6. a3 a6 7. dxc5 Bxc5 8. b4 Bd6 9. Bb2 O-O

MEMORY RULE

Shorten the candidate list, not the safety scan.

14. Decision Framework

Low-Focus Protocol

PAWN BREAK / TRANSFORMATION	Before an irreversible pawn move, picture the forced recapture, new files, new diagonals, and the first piece to use them.
PIECE JOB	Identify the least active piece and give it a route that supports the structure's main break or target.
TACTICAL WARNING	Verify the plan with checks, captures, threats, loose pieces, pins, and Black's strongest reply.
TRADE FILTER	Exchange only after naming the favorable feature that survives the recapture.
ENDGAME FORECAST	Forecast the king activity, pawn targets, files, majorities, and minor-piece quality that survive simplification.
CLOCK RULE	Spend time on forcing or irreversible choices; move efficiently only in a position you truly recognize.

ACTIVE RECALL

1. Without looking back, describe the center and the position's main imbalance.
2. What is your first useful plan, and which piece must improve before the pawn break?
3. What is the opponent's best freeing move or tactical resource?
4. Which exchange helps, which exchange helps the opponent, and what survives into the ending?
5. State the memory rule in your own words and name one trigger that would change the plan.

NEXT-GAME ASSIGNMENT

If a similar structure appears, pause before the first irreversible decision and use this rule: Shorten the candidate list, not the safety scan.

15. Opening Clock Management

THEORY TRAINING AND TOURNAMENT USE

READ THE POSITION

Familiar positions should save time, but unusual moves require a fresh scan.

PRIMARY PLAN

Move efficiently only after confirming the position still matches the stored landmark.

OPPONENT'S COUNTERPLAY

Black's best resource is the freeing move, tactical exchange, or piece improvement that challenges this plan.

REFERENCE LINE

1. d4 d5 2. c4 e6 3. Nc3 Nf6 4. Nf3 Bb4 5. cxd5 exd5 6. Bg5 h6 7. Bh4 c5 8. e3 Nc6 9. Bd3 cxd4 10. exd4 O-O

MEMORY RULE

Familiar shape is not proof of familiar theory.

15. Decision Framework

Opening Clock Management

PAWN BREAK / TRANSFORMATION	Before an irreversible pawn move, picture the forced recapture, new files, new diagonals, and the first piece to use them.
PIECE JOB	Identify the least active piece and give it a route that supports the structure's main break or target.
TACTICAL WARNING	Verify the plan with checks, captures, threats, loose pieces, pins, and Black's strongest reply.
TRADE FILTER	Exchange only after naming the favorable feature that survives the recapture.
ENDGAME FORECAST	Forecast the king activity, pawn targets, files, majorities, and minor-piece quality that survive simplification.
CLOCK RULE	Spend time on forcing or irreversible choices; move efficiently only in a position you truly recognize.

ACTIVE RECALL

1. Without looking back, describe the center and the position's main imbalance.
2. What is your first useful plan, and which piece must improve before the pawn break?
3. What is the opponent's best freeing move or tactical resource?
4. Which exchange helps, which exchange helps the opponent, and what survives into the ending?
5. State the memory rule in your own words and name one trigger that would change the plan.

NEXT-GAME ASSIGNMENT

If a similar structure appears, pause before the first irreversible decision and use this rule: Familiar shape is not proof of familiar theory.

16. Handle an Opponent's Novelty

THEORY TRAINING AND TOURNAMENT USE

READ THE POSITION

Most club-level novelties are deviations, not refutations.

PRIMARY PLAN

Check tactics, identify what the move changed, and return to development and the central plan.

OPPONENT'S COUNTERPLAY

Black's best resource is the freeing move, tactical exchange, or piece improvement that challenges this plan.

REFERENCE LINE

1. d4 d5 2. c4 c6 3. Nf3 Nf6 4. Nc3 a6 5. c5 Bf5 6. Bf4 Nbd7 7. e3 Nh5 8. Bg5 h6 9. Bh4 g5 10. Bg3 Nxc3 11. hxg3 Bg7

MEMORY RULE

Treat novelty as a position, not an emergency.

16. Decision Framework

Handle an Opponent's Novelty

PAWN BREAK / TRANSFORMATION	Before an irreversible pawn move, picture the forced recapture, new files, new diagonals, and the first piece to use them.
PIECE JOB	Identify the least active piece and give it a route that supports the structure's main break or target.
TACTICAL WARNING	Verify the plan with checks, captures, threats, loose pieces, pins, and Black's strongest reply.
TRADE FILTER	Exchange only after naming the favorable feature that survives the recapture.
ENDGAME FORECAST	Forecast the king activity, pawn targets, files, majorities, and minor-piece quality that survive simplification.
CLOCK RULE	Spend time on forcing or irreversible choices; move efficiently only in a position you truly recognize.

ACTIVE RECALL

1. Without looking back, describe the center and the position's main imbalance.
2. What is your first useful plan, and which piece must improve before the pawn break?
3. What is the opponent's best freeing move or tactical resource?
4. Which exchange helps, which exchange helps the opponent, and what survives into the ending?
5. State the memory rule in your own words and name one trigger that would change the plan.

NEXT-GAME ASSIGNMENT

If a similar structure appears, pause before the first irreversible decision and use this rule: Treat novelty as a position, not an emergency.

17. When Black Deviates Early

THEORY TRAINING AND TOURNAMENT USE

READ THE POSITION

An unusual move usually leaves a normal developing move available.

PRIMARY PLAN

Improve the center and worst piece while watching the intended trap.

OPPONENT'S COUNTERPLAY

Black's best resource is the freeing move, tactical exchange, or piece improvement that challenges this plan.

REFERENCE LINE

1. d4 d5 2. c4 c6 3. Nf3 dxc4 4. e3 b5 5. a4 Bb7 6. b3 cxb3 7. Qxb3 a6 8. Ba3 Nf6

MEMORY RULE

Do not invent a refutation when a strong setup is enough.

17. Decision Framework

When Black Deviates Early

PAWN BREAK / TRANSFORMATION	Before an irreversible pawn move, picture the forced recapture, new files, new diagonals, and the first piece to use them.
PIECE JOB	Identify the least active piece and give it a route that supports the structure's main break or target.
TACTICAL WARNING	Verify the plan with checks, captures, threats, loose pieces, pins, and Black's strongest reply.
TRADE FILTER	Exchange only after naming the favorable feature that survives the recapture.
ENDGAME FORECAST	Forecast the king activity, pawn targets, files, majorities, and minor-piece quality that survive simplification.
CLOCK RULE	Spend time on forcing or irreversible choices; move efficiently only in a position you truly recognize.

ACTIVE RECALL

1. Without looking back, describe the center and the position's main imbalance.
2. What is your first useful plan, and which piece must improve before the pawn break?
3. What is the opponent's best freeing move or tactical resource?
4. Which exchange helps, which exchange helps the opponent, and what survives into the ending?
5. State the memory rule in your own words and name one trigger that would change the plan.

NEXT-GAME ASSIGNMENT

If a similar structure appears, pause before the first irreversible decision and use this rule: Do not invent a refutation when a strong setup is enough.

18. Tournament Preparation

THEORY TRAINING AND TOURNAMENT USE

READ THE POSITION

Preparation should prioritize likely opponents and recurring structures.

PRIMARY PLAN

Review the decision tree, tactical warnings, and three model positions rather than every branch.

OPPONENT'S COUNTERPLAY

Black's best resource is the freeing move, tactical exchange, or piece improvement that challenges this plan.

REFERENCE LINE

1. d4 d5 2. c4 c6 3. Nf3 Nf6 4. Nc3 e6 5. e3 Nbd7 6. Bd3 dxc4 7. Bxc4 b5 8. Bd3 a6 9. e4 c5 10. e5 cxd4 11. Nxb5

MEMORY RULE

Prepare landmarks and dangers, not a database dump.

18. Decision Framework

Tournament Preparation

PAWN BREAK / TRANSFORMATION	Before an irreversible pawn move, picture the forced recapture, new files, new diagonals, and the first piece to use them.
PIECE JOB	Identify the least active piece and give it a route that supports the structure's main break or target.
TACTICAL WARNING	Verify the plan with checks, captures, threats, loose pieces, pins, and Black's strongest reply.
TRADE FILTER	Exchange only after naming the favorable feature that survives the recapture.
ENDGAME FORECAST	Forecast the king activity, pawn targets, files, majorities, and minor-piece quality that survive simplification.
CLOCK RULE	Spend time on forcing or irreversible choices; move efficiently only in a position you truly recognize.

ACTIVE RECALL

1. Without looking back, describe the center and the position's main imbalance.
2. What is your first useful plan, and which piece must improve before the pawn break?
3. What is the opponent's best freeing move or tactical resource?
4. Which exchange helps, which exchange helps the opponent, and what survives into the ending?
5. State the memory rule in your own words and name one trigger that would change the plan.

NEXT-GAME ASSIGNMENT

If a similar structure appears, pause before the first irreversible decision and use this rule: Prepare landmarks and dangers, not a database dump.

19. Monthly Repertoire Maintenance

THEORY TRAINING AND TOURNAMENT USE

READ THE POSITION

A stable repertoire needs small corrections, not constant replacement.

PRIMARY PLAN

Audit losses, outdated branches, and positions that still feel planless.

OPPONENT'S COUNTERPLAY

Black's best resource is the freeing move, tactical exchange, or piece improvement that challenges this plan.

REFERENCE LINE

1. d4 d5 2. c4 c6 3. Nf3 Nf6 4. Nc3 e6 5. Bg5 h6 6. Bxf6 Qxf6 7. e3 Nd7 8. Bd3 dxc4 9. Bxc4 g6 10. O-O Bg7

MEMORY RULE

Repair the weakest branch while preserving the whole system.

19. Decision Framework

Monthly Repertoire Maintenance

PAWN BREAK / TRANSFORMATION	Before an irreversible pawn move, picture the forced recapture, new files, new diagonals, and the first piece to use them.
PIECE JOB	Identify the least active piece and give it a route that supports the structure's main break or target.
TACTICAL WARNING	Verify the plan with checks, captures, threats, loose pieces, pins, and Black's strongest reply.
TRADE FILTER	Exchange only after naming the favorable feature that survives the recapture.

CLOCK RULE	Spend time on forcing or irreversible choices; move efficiently only in a position you truly recognize.

ACTIVE RECALL

1. Without looking back, describe the center and the position's main imbalance.
2. What is your first useful plan, and which piece must improve before the pawn break?
3. What is the opponent's best freeing move or tactical resource?
4. Which exchange helps, which exchange helps the opponent, and what survives into the ending?
5. State the memory rule in your own words and name one trigger that would change the plan.

NEXT-GAME ASSIGNMENT

If a similar structure appears, pause before the first irreversible decision and use this rule: Repair the weakest branch while preserving the whole system.

20. Thirty-Day First-Pass Plan

THEORY TRAINING AND TOURNAMENT USE

READ THE POSITION

A month is enough to become playable if study alternates theory, recall, and games.

PRIMARY PLAN

Week 1 foundations and ...d5; week 2 Indian defenses; week 3 sidelines and structures; week 4 games and repair.

OPPONENT'S COUNTERPLAY

Black's best resource is the freeing move, tactical exchange, or piece improvement that challenges this plan.

REFERENCE LINE

1. d4 d5 2. c4 c6 3. Nf3 Nf6 4. Nc3 e6 5. e3 Nbd7 6. Bd3 dxc4 7. Bxc4 b5 8. Bd3 a6 9. e4 c5 10. e5 cxd4 11. Nxb5

MEMORY RULE

Learn, retrieve, play, analyze, and repeat.

20. Decision Framework

Thirty-Day First-Pass Plan

PAWN BREAK / TRANSFORMATION	Before an irreversible pawn move, picture the forced recapture, new files, new diagonals, and the first piece to use them.
PIECE JOB	Identify the least active piece and give it a route that supports the structure's main break or target.
TACTICAL WARNING	Verify the plan with checks, captures, threats, loose pieces, pins, and Black's strongest reply.
TRADE FILTER	Exchange only after naming the favorable feature that survives the recapture.
ENDGAME FORECAST	Forecast the king activity, pawn targets, files, majorities, and minor-piece quality that survive simplification.
CLOCK RULE	Spend time on forcing or irreversible choices; move efficiently only in a position you truly recognize.

ACTIVE RECALL

1. Without looking back, describe the center and the position's main imbalance.
2. What is your first useful plan, and which piece must improve before the pawn break?
3. What is the opponent's best freeing move or tactical resource?
4. Which exchange helps, which exchange helps the opponent, and what survives into the ending?
5. State the memory rule in your own words and name one trigger that would change the plan.

NEXT-GAME ASSIGNMENT

If a similar structure appears, pause before the first irreversible decision and use this rule: Learn, retrieve, play, analyze, and repeat.

Course Completion Test

Choose ten chapters at random. Rebuild each reference position, name both sides' plans, identify the critical break, and state the trade filter without reopening the chapter.

Score one point for the structure, one for your plan, one for counterplay, one for the break, and one for the memory rule. Forty out of fifty means the knowledge is usable; below forty means retrieval practice should continue.

FINAL PRINCIPLE

A course is complete when its ideas appear in your decisions, not when its pages have been read.
